

LEGAL TEXT

We are determined to remind all concerned that the term ALGECO refers to a registered trademark, and that as such it is protected. Using the ALGECO brand name is accordingly prohibited to any unauthorized third party. Using our brand name in a generic sense is also prohibited, particularly since a generic use of the term ALGECO can be tarnished by a negative connotation that harms our corporate image.

We have even expressly demanded that the word ALGECO be withdrawn from dictionaries, since such an utilization might result in loss of copyright for the brand name owner, a copyright that we are decisively prepared to defend.

Our company reserves the right to bring action against any third party who would reproduce our brand name in such a way or under such circumstances as may be harmful to us.

Beyond its legally reprehensible aspect, this utilization in a generic and/or negative sense is also highly simplistic, since Algeco Company is the European leader in modular construction, currently offering a most diversified choice of temporary and permanent solutions in a number of fields (schools, offices, work camps, special events, equipment rooms).

Our company is therefore renowned for its product quality and its know-how.

In order to avoid confusion and to dispel any unfortunate association, we insist on specifying that the ALGECO brand name may solely be utilized in referring to our company's products, services and installations.

Enjoy your visit.
